

Bench - **Blackberry**

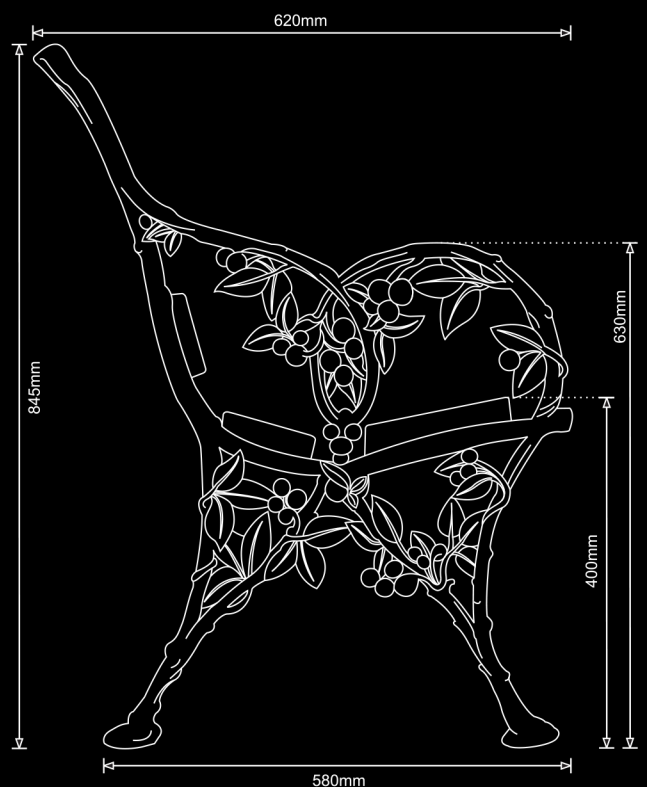

Constructed in cast iron with timber slats. The bench supports feature a well-detailed naturalistic design incorporating branches, leaves and fruit. Available in one, two or three seater versions, a matching table complements this design.

The Blackberry seat provides a good example of how Lost Art can produce bespoke items based on historical designs. The use of shaped slats allows us to construct a circular tree seat and other configurations are also possible.

Dimensions

Height: 845mm Floor to Armrest: 630mm
Width: 620mm Floor to Seating: 400mm
Base: 580mm
