

# Bench - Coalbrookdale Medieval

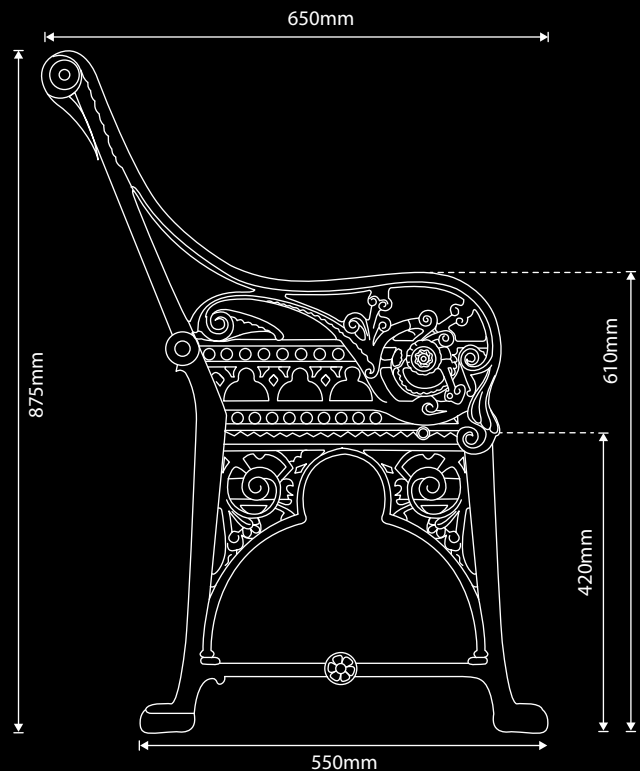

A particularly rare design, based on a 19th Century Coalbrookdale Medieval pattern. The cast iron ends include intricate, yet well defined decoration and are attributed to the innovative and much sought after designer Christopher Dresser.

His notable style involved the combination of stylised natural forms with geometric influenced elements and borders.

Constructed from cast iron and timber, the seat features cast iron seat and back frame into which the timbers are hand sprung.

## Dimensions

Height: 875mm    Floor to Armrest: 610mm  
Width: 650mm    Floor to Seating: 420mm  
Base: 550mm
